

The Coronavirus

The **Coronavirus** is a **virus** that can make people feel unwell.

COVID19/ CORONAVIRUS

The **Coronavirus** can also be called “**COVID-19**”.

People who have the **Coronavirus** may have:

- **Sore Throat**
- **Dry Cough**
- **A Fever**
- **Difficult to Breathe**

Most people who have the **Coronavirus** will **stay at home** to get better.

Some people who have the **Coronavirus** will **go to the hospital** to get better.

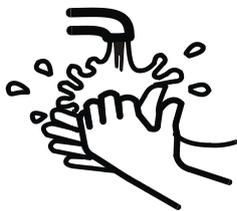

To **help stop** the spread of **germs**, people **must cough** or **sneeze** in a **tissue** then put the **tissue** in a **bin**.

To **help stop** the spread of **germs**, people **must wash** their hands with **soap and water**:

- **Before eating**
- **After sneezing**
- After **touching your nose** or **mouth**

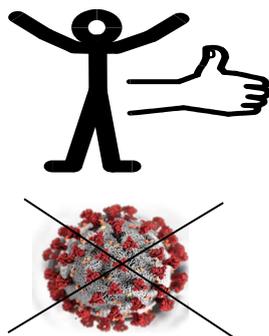

We can **take our time** when we **wash our hands**.

Washing between **fingers** and **all over** our hands.

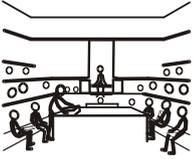

Use a **hand sanitiser** if there is no soap.

Places will be **closed** to try to stop lots of people catching Coronavirus and let **everyone get better**.

Just like other types of flu, the **Coronavirus** will **go away**.

It is **important** that we **follow** what the **Government** and **NHS** ask us to do.

If you are **worried about Coronavirus** you can **talk to your family or your staff**.

There are people who can help you.
